

## MACHOLD GIVES CREDIT TO MILLER

Legislature's Achievements Are Due to Governor, Says Speaker.

## SOUND POLICY FAVORED

Tells Assembly That People Will Praise Executive for Traction Solution.

## GOVERNMENT COST CUT

Minority Leader Donohue Attacks Republican Brethren as Legislative Hindenburgs.

Special Despatch to THE NEW YORK HERALD, New York Herald Bureau, Albany, April 16.

In his closing address to the Assembly, Speaker Machold to-night gave credit to Gov. Miller for the achievements of the legislative session. The Governor displayed the greatest courage in his handling of the traction problem, fair settlement of which, the speaker said, had been obstructed for years by timid officials and blatant demagogues. He gave high praise to the Legislature for its support of the Governor on all important measures.

"The public do not expect parsimony and do not want a stingy and shabby administration," the speaker said. "They do want a reasonable and decent regard for their interests which would check waste and extravagance and treatment of public money as a trust fund. The administration has put a stop to the mounting cost of government. We have introduced business into the State government."

## Governor as Leader.

"In this work of real economy the Legislature has had a great leader in the Governor. We have recognized in him a man of courage who could say 'no' and mean it. The majority admires the courage, intelligence and patience of the Governor and has supported him in his constructive programme because he merited support and because the policy was what the people, wearied with the burdens of war and tired of high taxes, demanded."

"You are to be congratulated, because, in spite of the discords which have arisen from those whose selfish interests were affected, you have not failed to distinguish the true from the false, nor to love trust that in the executive chamber there sat a Governor of vision who looked calmly beyond the irritation of the hour, confident that he and you were building a substantial structure. The speaker reviewed the mismanagement of municipal traction problems which had brought a crisis in most cities, and said that the Governor was the first who had firmly grasped the whole problem."

"The Governor went to the heart of

the problem with a directness and insight that sounded his opponents. He has outlined the practical remedy. It will take time to effect the cure, but the American people are fair and constructive, and they now recognize that the Governor has not shrunk from the problem or temporized with it.

"It will not be long before the people of this State will realize that the Governor's plan is based on sound and fundamental principles. Once confidence is restored in the administration of public utilities and in the security in investments in these great properties the thanks of the people, even of those who are now misled by demagogues, will be yours."

## PERMANENT DETECTIVE DIVISION BILL PASSED

Assembly Approves It Despite Republican Attacks.

Special Despatch to THE NEW YORK HERALD, New York Herald Bureau, Albany, April 16.

Establishment of a permanent detective division in the New York Police Department is provided in the Lusk bill, which passed the Assembly this afternoon. The bill was passed by a vote of 100 to 57. The bill was introduced by Assemblyman Louis Martin, Republican, of Albany.

The bill amends the Donnelly anti-monopoly act by making the statute apply to products of all kinds used in commerce. Samuel Gompers made a trip here to kill the bill. At his request an amendment was adopted by the Senate last Thursday. It is regarded as one of the most important labor measures passed in recent years in that it tends to stop labor's dictation to employers.

"I speak in behalf of 3,000 men who have given their lives to the protection of the people of New York city," he said. "Fairness and decency demand an equal opportunity for all. This measure merely provides for a chosen few, who have been backing in the sunlight of the favor of Mayor Hylan and Commissioner Enright."

Charles D. Donohue, minority leader, defending the bill, said that no fair test of a detective's ability could be made through civil service examinations. "The men in the present detective force have proved their worth," he said, "and their positions should be made permanent."

## JITNEY OUSTER IS BLOCKED.

ALBANY, April 16.—Court procedure to ban passenger carrying motor vehicles from Albany's streets, where they have operated since the beginning of the United Traction strike, January 29, has been blocked for probably two more weeks.

The filing of the writ of mandamus obtained by the traction company's vice-president, requiring Mayor Watt to enforce the transportation corporation's law, was followed immediately by filing by the city's corporation counsel of an appeal which will be argued in the Appellate Division next month.

## PRICE FIXING BILL PASSES ASSEMBLY

Fight for Photo-Engravers Union Carried on Vainly Until Last Minute.

Special Despatch to THE NEW YORK HERALD, New York Herald Bureau, Albany, April 16.

The Meyer-Martin bill designed to prevent price fixing by the photo-engravers union passed the Assembly shortly before midnight by a vote of 78 to 58. New York Republicans and Democrats made a hard fight against the measure.

Edward J. Neary, Republican, of Queens, at first tried to kill the bill by making a motion to recommit for amendment. That was lost by a vote of 83 to 57. Neary said the bill was an attack on labor and would bring about labor dissension in this State similar to that in England. Charles D. Donohue, minority leader, attacked the bill.

The defense of the proposed law was led by Assemblyman Louis Martin, Republican. The State recognizes the right of labor to refuse to work, but denies the right of either capital or labor to combine to restrict production or fix prices.

The bill was then rushed to the Senate, which had been in recess for two hours waiting for the Assembly to act. Its passage in the Senate was assured. The bill amends the Donnelly anti-monopoly act by making the statute apply to products of all kinds used in commerce. Samuel Gompers made a trip here to kill the bill. At his request an amendment was adopted by the Senate last Thursday. It is regarded as one of the most important labor measures passed in recent years in that it tends to stop labor's dictation to employers.

## \$562,375 YEAR'S TOTAL FOR REBUILDING FRANCE

\$401,530 Already Has Been Remitted From Here.

The third annual report of the American Committee for Devastated France, which was made public yesterday, shows total receipts of \$562,375.52 for the twelve months ending March 31, of which \$401,530.54 was remitted to France to carry on the work of the committee in the four cantons to which the workers have confined their efforts. The committee reports \$24,356.07 still being due on pledges and says that \$28,917.00 was spent to purchase supplies in this country for shipment abroad.

The four cantons in which the committee's workers are active are all in the Department of the Aisne and are the cantons of Vio-Sur-Aisne, Coucy-le-Chateau, Soissons and Anizy-le-Chateau. Miss Anne Morgan is vice president and chairman of the committee.

## CRAMPS ATTACK STEEPJACK ON JOB

Middletown Worker Saves Bad Fall by Using Teeth.

Special Despatch to THE NEW YORK HERALD, Middletown, N. Y., April 16.—Theodore Hobush, a steepjack, was the victim of an accident almost unheard of in his trade while working on the 130 foot stack of the Public Service Corporation here to-day. He was seized with muscular cramps such as frequently attack swimmers and his arms were rendered powerless while trying to descend his rope.

The man used his teeth and legs on the rope in order to avoid being pitched to death and succeeded in sliding down 100 feet. Then he lost control and fell, landing practically uninjured. Forty minutes later he was back at work.

## TAX CLERKS COUNT \$10,000,000 INCOME

Thirty Sacks of Mail Still Wait Tabulation of Collector's Office.

Tabulation of the amount of money the State will receive this year in income taxes had passed the ten million mark, and there still were thirty sacks of mail untouched, when Niles R. Becker, District Director of Income Tax Collection, turned to a group of weary clerks in his office yesterday afternoon and suggested they call it a day. Mr. Becker did not have to speak twice. In a few minutes the office that had been besieged by taxpayers of both sexes for a week was deserted.

Mr. Becker kept his office open until yesterday morning—it was a few minutes after 12 when the doors were closed—so the tardy taxpayers might have reasonable opportunity to comply with the law. Friday, the final day for payment, was the heaviest income tax day in the history of State tax collection. If it possesses a history, since this is but the second year. Five thousand persons paid in cash and their payments totalled \$28,000, which was \$10,000 more than was received on the last day last year.

Mr. Becker does not believe the collection this year will exceed that of last, but feels it will at least equal that of 1920. He bases his belief on the discoveries made by the Federal authorities. Their collection fell below last year's, but Mr. Becker places his faith in the thirty unopened mail sacks and a large amount of registered mail that has collected in his office to bring his \$10,000,000 total of yesterday up to the \$22,000,000 one of 1920 before the last adding machine stops clicking.

## Flint's Fine Furniture

GUARANTEED.

## Satisfy yourself

The surest of all assurance is comparison. In no other way is value so convincingly proven. That is why we urge you to visit all good furniture shops before you decide to buy.

But whether you come to Flint's first or last you will buy at Flint's if comparison of values weighs with you. And here is a point we wish to impress: you are most welcome to examine, to question and to compare. Under no circumstances will you be importuned to purchase.

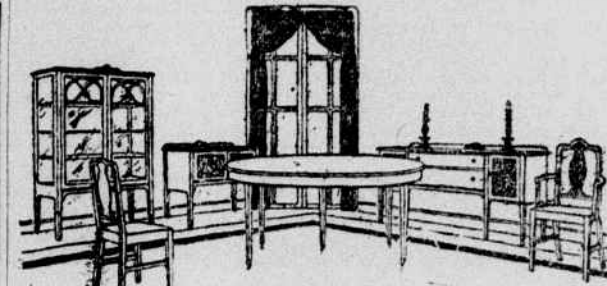

WE GUARANTEE THAT IF, FOR ANY REASON, DURING THIS YEAR WE QUOTE A LOWER PRICE ON ANYTHING SOLD AT THIS TIME, WE WILL RETURN TO EVERY PURCHASER THE AMOUNT OF THE DIFFERENCE.
